## 4<sup>th</sup>-8<sup>th</sup> Grades English Language Curriculum Framework for Summer School

The English Language Curriculum Framework is prepared for the 4<sup>th</sup>-8<sup>th</sup> grade students who are willing to attend English classes during summer school. This curriculum framework is based on the English Lesson Curriculum for primary and secondary school students (2-8 grades). The themes in this curriculum framework are determined according to the English lesson curriculum by taking into consideration the duration of summer school. The objective of this curriculum framework is to reinforce students' communicative competence and to create positive attitudes, beliefs, and motives toward learning English.

During the summer school, students engage in activities which require actual communication between students and their teacher, such as creating a game as a group and then playing it with classmates, rather than rehearsing prepared material (e.g., taking turns reading a printed dialog from a textbook or reciting memorized lists of verb forms). Furthermore, as motivation is essential to student success, the curriculum framework aims to make learning English interesting, engaging and fun, taking into account the diverse needs of students at different developmental levels (Cameron, 2001). At this point, students are predominantly provided with a 'play world', in which they are expected to sing, dance, play games, do arts and craft activities (McKay, 2006), all of which embedded with English language. To sum up, the curriculum framework strives to foster an enjoyable and motivating learning environment where students of English feel comfortable and supported.

A model English Language Curriculum Framework is demonstrated in terms of levels, groups, skill focus, main activities and strategies below in order to explain the details of the curriculum framework. The language skills, main activities and strategies presented in the table are suggested for the application of the curriculum framework in the summer school.

### Model English Language Curriculum Framework (For 4<sup>th</sup>-8<sup>th</sup> Grades)

Levels (Hours/Week)	Groups	Skill focus	Main activities/Strategies
(A1) 12	1 <sup>st</sup> group (4 <sup>th</sup> grade)	Listening and Speaking Very Limited Reading and Writing	TPR/Arts and crafts/Drama
(A1) 12	2 <sup>nd</sup> group (5 <sup>th</sup> -6 <sup>th</sup> grades)	Listening and Speaking Limited Reading Limited Writing	Drama/Role-play
(A2) 12	3 <sup>rd</sup> group (7 <sup>th</sup> -8 <sup>th</sup> grades)	Primary: Listening and Speaking Secondary: Reading and Writing	Theme-based

The curriculum framework is designed for 3 groups as illustrated in the table above. There are 4 themes for each group and each theme is planned to be instructed in 12-course hours per week. Speaking and listening are the major skills depicted in the fourth grade (the 1<sup>st</sup> group) of the curriculum framework. Nevertheless, that does not mean teachers cannot offer any doable reading or writing tasks, which would be quite reasonable, and perhaps inevitable, in a communicative classroom atmosphere. In the 5<sup>th</sup>-8<sup>th</sup> grades (2<sup>nd</sup> and 3<sup>rd</sup> groups) all of the skills (speaking, listening, reading, and writing) are included, but the speaking and listening skills should be the primary ones in order to improve students' communicative competence. Briefly, reading, writing, and grammatical structures are not a focus of the instruction process. Because younger students learn languages best through songs, games, and hands-on activities (Cameron, 2001). Authentic materials, arts and crafts, drama, role play, and context-embedded activities are implemented to stress the communicative nature of English for summer school.

Learning, teaching and assessment are part of a whole, interacting constantly with each other in shaping not only teachers' instructional choices but also students' learning strategies. Self-assessment is emphasized primarily in the curriculum framework, as students are encouraged and expected to monitor their own progress

and achievement in the development of communicative competence (Bachman, 1990; CoE, 2001). To this end, each theme includes a list of achievements to be met by the students; this can be converted into self-assessment checklists which ask students to assess their own learning from an action-based perspective. In other words, children are prompted to answer questions such as “What did you learn?”, “How much do you think you learned?” and “What do you think you can do in real life, based on what you learned in class?”

### Important Issues for the Application of the Curriculum Framework

The summer school language learning environment is characterized by the following communicative features:

- Communication is carried out in English as much as possible and based on the creation of real meaning.
- The focus of learning is on deepening communication, rather than on completing curricular items within a given period of time.
- Remind children that learning English language is easy and enjoyable.
- Enjoyment of language learning is fostered through activities such as arts and crafts, TPR, and drama.
- Classroom materials and teaching tools should be drawn from authentic sources as much as possible in order to demonstrate English as it is used in real life (Cameron, 2001).
- Students frequently encounter materials that have previously been covered in order to reinforce what they already know.
- Students are continuously exposed to English through audio and visual materials.
- Use media, cultural artifacts and people as much as possible to contextualize the lessons and to keep students’ interest alive.
- Students develop high motivation for learning by completing challenging, yet achievable activities.
- Students produce materials to share with the rest of the classroom.
- Errors are not addressed during communication, so as not to disrupt the flow; problem areas are noted by the teacher and addressed at a later time through practice and reinforcement.

All of the foreign language skills [Reading (R), Listening (L), Speaking (S), and Writing (W)] were addressed throughout the English curriculum framework for summer school. The learning outcomes specified within the curriculum were coded with regard to the course name, group, theme number, language skill and the number of the learning outcomes. These codes were assigned to each learning outcome, as follows:

The functions and the useful language, language skills and learning outcomes as well as suggested materials/tasks/contexts were presented in three different consecutive columns in the syllabi.

- The functions refer to the communicative role(s) of a given form in a context of situation.
- The language skills are presented as specific subskills and/or strategies. Those subskills and strategies are associated with the functions and useful language in terms of theme, context and task requirements.
- Suggested materials are presented to provide teachers and students with comprehensive digital and printable content during the summer school.
- Suggested contexts and tasks help students achieve a success in practicing the input and language skills in the preceding columns.
